WORK EXPERIENCE

Product Designer

Speculation Info Tech | Jan 2024 - May 2026

- Led web and mobile design work with product managers and engineers, translating requirements into user flows and interface designs.
- Conducted user research, competitive analysis, and stakeholder discussions; synthesized findings into personas, journey maps, and information architecture.
- Created Figma wireframes, interactive prototypes, and high-fidelity screens with responsive layouts and clear visual hierarchy.
- Built reusable components and documented interface patterns and interaction guidelines in a design system.
- Facilitated usability testing and refined flows and interfaces using user and stakeholder feedback.
- Prepared Figma handoffs, reviewed implementation with engineers, and documented usability and visual issues through UX audits.

SELECTED DESIGN STUDIES

MasalaCrust | Responsive web concept

Designed menu discovery, pizza customization, cart, checkout, and tracking flows, supported by wireframes, a visual system, and high-fidelity screens.

Aura | Mobile design concept

Designed onboarding, interest-based discovery, messaging, and community flows for a social discovery concept, with wireframes and reusable UI components.

SKILLS AND TOOLS

UX and UI: User flows, information architecture, wireframing, prototyping, responsive design, usability testing, design systems, developer handoff.

Tools: Figma, Framer, Miro, Adobe Photoshop, Adobe Illustrator.
